Brine

Other

Description of Other Released Contaminant:

Natural Gas Liquids. The amount of NGLs that were carried over through the flare has not been determined at this time.

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

Up until the time the fire was extinguished, there was the risk of exposure to excessive heat for the people and equipment in the immediate area.

Areal Extent:

The areal extent has not yet been determined.

Potential Environmental Impacts:

At this time the amount of area that the fire impacted has not been determined. There are no reasons to suspect any additional environmental impacts at this time.

Action Taken or Planned:

Portable extinguishers were used in attempts to knock down the fires. The local Fire Department was notified and did arrive on site to extinguish the fires. A fluid truck was dispatched to remove the liquids from the vessel to keep from carrying over to the flare. The defective components will be replaced.

Wastes Disposal Location: If there is any waste that needs to be disposed of as a result of this incident, it will be taken to an approved waste disposal facility.

Agencies Involved: Local Fire Department
